

CDM Regulations Awareness Training Course

Who should attend?

This course is intended for project managers, site managers and supervisors as well as proprietors of companies who put others to work at height. Possession of this qualification will facilitate good practice in compliance with the Construction (Design and Management) Regulations 2005 and be used to show competence.

Aims:

To give a detailed understanding of responsibilities for the CDM Co-ordinator and current safety legislation. This course is ideal for companies and management who need to meet the demand for competency of sound health and safety management in terms of CDM issues. The course fee includes manuals, other course materials, refreshments and lunch.

Course Tutors:

Our course tutors are construction site practitioners with a vast experience of 'on-site' realities. They are also Chartered Members of the Institute of Occupational Safety and Health (CMIOSH); and also qualified and experienced Members of the Institute for Learning (MfL).

Content:

- CDM Regulations 2007
- Risk assessments/method statements
- CDM Regulations, Approved Codes of Practice, Guidance and Industry Best Practice
Duties of Duty Holders
- Recent changes in accepted (best practice) working practices

Costs: Please contact our office for prices 'per delegate', in-house or group bookings.

Certificate: CDM Regulations Certificate in Competence

Timings: One day of 9.00 – 4.00 at our training centres or your facilities if required

Numbers: Maximum number of delegates: 15

CITB Grants may be available to qualifying fee paying companies

Attendance grant may be claimable for courses; please ask for details.
