

Health and Safety Consultancy

With our dedication to all aspects of Health and Safety, we are now able to provide our clients with a complete and comprehensive Consultancy Service. Consultancy is key to getting things right and keeping them there. It is vital that any Health and Safety measures you have in place are up to date and we are best placed to advise you on this. Whatever size of business you are, we are here to help. Our advisers are available to discuss your needs and inform you of your requirements

Our services include but are not limited to:

CDM Co-ordinator (RMaPS) works.

As required under CDM 2007 Regs , works over 500 person days or 30 working days duration, any construction work including demolition requires a CDM Co-ordinator.

Health & Safety site reports.

These can be surveyed and written for all types of client. We have written many reports for building sites, office blocks, residential and special occasions.

Health & safety Policy Writing.

Under Health & safety at Work Act 1974 employers with more than four employees are required to prepare and revise on a regular basis , a written Health & safety Policy. At R. B Services we can prepare and assist you with this document

Scaffold checks.

Under CHSW regulations, all scaffolds must be inspected by a competent person after any event likely to have affected its strength or stability and at regular intervals not exceeding 7 days from the last inspections.

Health & Safety training.

Under the Management of health and safety at work regulations and other regulations, it is a legal requirement for an employer to provide such training. We can assist with many courses.

Risk Assessments.

We can teach you through our courses, or, we can carry out assessments for you including Fire Risk assessments, Display Screen assessments, Chemical and Biological Health hazards and Control (COSHH).

Electrical Testing.

Anything that is plugged in must be tested. Portable Appliance testing is required by many insurance companies and assists in a culture of good practise. All items should be tested at least yearly and in some cases three monthly. The supply side of electrics should be tested 3 monthly for a temporary building or five yearly at the most for commercial three yearly for industrial and ten yearly for residential . Our Electrical Department can carry out these please contact us on 0203 225 3078 or visit www.rbelectricaltesting.com.

Gas testing.

These tests are required to protect life as the electrical testing. Our property maintenance department can assist . Contact us on 0203 225 3078

Whilst we appreciate that all responsible businesses take steps to prevent accidents from occurring, you can be assured that in the worst scenario we can carry out Investigations following an incident.

Other Services
