

## **R.B. SERVICES**

Health & Safety Consultancy

### **Health and Safety for Directors and Managers**

**Summary:** Business performance and health and safety are two integral concepts. Poor management of health and safety matters will result in a negative trend for business productivity. Conversely a positive health and safety culture in the workplace results in good business and progress. A company with poor health and safety record will experience hindrances to business progress. These problems will relate to the costs of accidents, absence and replacement of employees and costs of legal repercussions and increased insurance premiums. In the modern business arena a poor safety record may also result in exclusion from business tenders and opportunities

**Course Content** Outline the business drivers for improving Health & Safety standards in the workplace

Describe the legal system in the UK as it applies to Health & safety at work and particularly in relation to workplace litigation

Outline the legal duties for employers and employees under the Health & Safety at work Act 1974 (HASWA)

Outline the main requirements for employers and employees under the Management of Health & Safety Regs 1999 (MHSW)

Identify a range of core activities for all organisations.

Describe a range of initiatives which can be introduced into the workplace to develop best practice

Answer common questions that are frequently asked within organisations about basic H&S issues
